DESPERATE CHARACTERS Surrounded by Officers and a Tragedy Anticipated.

MERCED, March 21.—Several nights since a valuable saddle horse was stolen from Balfour, Guthrie & Co.'s ranch near this place and last night another horse was missed from the farm of E. Sleveter, in the same neighborhood. Circumstances point toward C. Aros, who recently escaped from the county jail, as the thief. He is in the company of Wm. Hall, also an escaped convict, and several other desperadoes. The latter are desperate characters. The trio has been living in the marshes on the San Joaquin river for weeks past. Officers from here left to capture them, and at last accounts had surrounded the gang. The latter are desperate and have sworn not to be taken alive. Bloodshed is expected before the capture is effected. The marsh is inhabited by Mexicans who are always ready to assist outlaws of any description.

COWARDLY CLARK

Takes His Old Aunt for a Burglar and Shoots Her.

SAN RAFAEL, March 21.—This morning J. G. Clark, who was asleep at his home in this place, was awakened by a noise. Thinking there were burglars in the house he arose, secured a revolver, placed it under his pillow and went to bed again. In a short time the bedroom door was opened and some one entered. Clark became thoroughly frightened and in a scared voice ordered the intruder to leave. The latter came nearer the bed and Clark, whose senses by this time had almost departed from fright, brought himself to the use of his pistol and fired, when the advancing figure fell to the floor. He then lighted the place and discovered that he had shot his aunt, an old deaf and dumb lady named Mrs. Cornell. She had been to all the rooms of the house opening windows for fresh air. The bullet had struck her in the thigh and coursed through the flesh into the right leg. She will recover.

After the Sack.

REDWOOD CITY, March 21.—The case of Harriet A. Moore vs. Moses Hopkins, a suit for \$151,000 for breach of promise, came up to-day before a jury in the Superior Court of this county. The greater part of the forenoon was taken up securing a jury. The afternoon was spent reading the deposition of Dr. M. R. Fletcher, of Boston, who treated the plaintiff for severe nervous troubles, alleged to have resulted from the failure of Mr. Hopkins to keep his promise of marriage.

No Clues as to the Cause of a Murder.

TUCSON, A. T., March 21.—Word was received here this morning that Con Ryan was murdered on Saturday night or Sunday morning, at his ranch a few miles below Crittenden, near the old Flux Mine Switch. No particulars are given, and nothing further has been learned concerning the crime. Sheriff Shaw left here by train this morning, and will arrive at Ryan's house about 10 o'clock to-night. Those who are familiar with the parties and the locality are only one possible solution of the cause of the crime—that it is the culmination of an old feud, arising out of a suspicion that the deceased was in some way responsible for the death of his former partner, who was killed at his home about two years ago. No other motive can be conceived for the murder.

Charles Lux's Will.

SAN FRANCISCO, March 21.—The will of the late Charles Lux was filed in the Superior Court at Redwood City to-day. The first bequest is to his widow of the Buero-Rancho, in San Mateo county. To his brother Phillip, his sisters Barbara and Dorothea, and his nephew George, are bequeathed each \$25,000. Numerous other bequests are made to relatives and friends and to charitable institutions he leaves sums amounting to \$138,000. All the rest of his estate is bequeathed in equal portions to the deceased's brothers, sisters and nephew. The value of the estate is said to reach into millions.

Purchase of a Ranch.

TEMPLETON, March 21.—W. V. Huntington, nephew of C. P. Huntington, himself a Director of the Southern Pacific, has made a large land purchase, consisting of 3000 acres at the Santa Ysabel ranch, near Templeton, not for speculation, but he will have it immediately fenced, cultivated, and made one of the finest farms in the State. It is decided to bridge the Salinas at this point immediately. A force of men was set to work this morning to make a good road from here to Creston, through the farming region of the Huerfano ranch, on which are already large settlements which will thus have access to railroad shipping at Templeton.

Burglars.

SANTA CRUZ, March 21.—A burglary occurred at Sequel last night. Two men in a wagon went to F. Fleissig's general merchandise store, broke open the window, entered the warehouse and carried away a lot of groceries, liquors and tobacco. The warehouse faces Main street, on which, at the time, there were a number of men, who thought that Fleissig was loading a wagon. The daring burglars drove off with the booty, and no trace of them has been found. The goods are valued at \$900.

The More Case.

SAN FRANCISCO, March 21.—Application for a certiorari and writ of review in the case of the People vs. Alexander P. More was argued in the Supreme Court this morning by John J. Boyce, on behalf of the people and Colonel Flournoy for the defendant. The matter was taken under advisement. The writ is based on that at the time of issuing the order of dismissal in this case and discharging More, Hatch was not in fact the Superior Judge of Santa Barbara county, the office having become vacant by his removal from that place to the city of Los Angeles some time previously.

Bank Burglars Shot At.

PHOENIX, Ariz., March 21.—At an early hour this morning a clerk in the employ of Kules & Lewis, bankers, who sleeps in the back room, heard unusual noises in the bank, and on opening the door found that two men had entered through the transom. The Bank of Central California has organized with a capital of \$300,000, and will commence business to-morrow. They have purchased the Einstein building on Mariposa street.

Hunting Real Estate.

SANTA ANA, March 21.—Fred Sharon, F. G. Newlands and a party from San Francisco arrived here Saturday morning and have been inspecting the city and country property at Santa Ana, Orange and Tustin. Last evening the party went to San Juan Capistrano and it is reliably stated that they intend purchasing property both at San Juan Capistrano and at Santa Ana.

Decided Against the Plaintiff.

SAN FRANCISCO, March 21.—The suit brought by John D. McNaughton against the Southern Pacific company to recover \$2000 for being ejected from a car of the Company, has been rendered adversely to the plaintiff. The ticket that McNaughton held did not permit his stopping over on the trip. He disregarded the provision by stopping over one day at a point, and when he again boarded the train he was ejected.

Horribly Mutilated.

COLTON, March 21.—The body of a man, who had evidently been riding on the brake of last evening's east-bound train, was found horribly mutilated on the Southern Pacific track, about one-fourth of a mile west of Colton, this morning. From letters found on his person his name was ascertained to be W. A. Cole.

More About Lawton's Actions and Flight.

A DOCTOR AND HIS ADVICE.

The Yacht Dauntless Met at Sea.
New York Protesting Against Irish Coercion.

Associated Press Dispatches to the HERALD.
NEW YORK, March 21.—The World will say to-morrow that the flight of Walter E. Lawton, the guano-man, was probably precipitated by the discovery of the fact that, after having given mortgages in 1884 aggregating \$300,000 on some brick clay land at Little Ferry, New Jersey, where the mortgages remained unrecorded, because of the confidence in him, he sold the land March 10th last to the New Jersey and New York Brick Company, in return for which he got 950 of the company's \$1000 bonds and \$1,000,000 of its stock, and to secure the bonds the land was mortgaged for the full amount again and the mortgage recorded.

THE GUANO MAGNATE.

What the Creditors of Walter Lawton Will Get.

NEW YORK, March 21.—Abraham King, counsel for a number of creditors of the missing Walter E. Lawton, the guano magnate, made the first estimate to-day that has been attempted, of how much the creditors will receive out of the wreck. Attachment reach a total of \$510,751. King thinks the assets will be about \$400,000, and assumes that the creditors will receive about 75 per cent. of their claims. He considers Lawton's Cat tail and principal creditors, but this already has \$1,250,000 worth of mortgages. It is expected that the legal battle to determine which of the various mortgages on the island shall take precedence will be one of the interesting complications that is certain to arise out of this mysterious affair.

A MEDDLING PHYSICIAN.

Who Thinks that Cleveland Needs His Advice Badly.

WASHINGTON, March 21.—Dr. Z. T. Sowers, one of the most prominent physicians of Washington, in an interview with a reporter to-day, declared that there is danger that President Cleveland will not live through his term, unless there is a change in his mode of living. Dr. Sowers, six months before Manning's illness, made the same prediction with regard to the Secretary, and advised his friends to warn him of his danger. In an interview to-day Sowers says: "It may be deemed impertinent to talk to the President through newspapers, but I know of no other way of reaching him, and those about him, surely. You recall my attempts with the friends of Manning and their fruits. I do not feel that I should take the same chances in this matter. I am personally apprised of the President's condition, and while it is in no sense dangerous, it will not be long before there will be reason for alarm. President Cleveland is a large and fleshy man and since he came to the White House he has gained enormously in flesh. Now when he lies in Buffalo it was his habit to take long walks. Since he came here he has abandoned every exercise save carriage riding, and that is of little or no use with the springs now in use and the smooth streets for which Washington is famous. The President is a man who works with his head a great deal, he is in fact an intense brain worker. He is consequently filled with an excess of blood, and what is the result? He works with his head, eats enormously and fails to exercise his muscles; his blood vessels are weakened and it is only a question of time when in a moment of excitement he bursts a blood vessel. I tell you, at the rate President Cleveland is now living there is great danger that he will not live through his term. Something should be done to bring him to realize his danger and take the proper steps to prevent a result which will surely ensue if he fails to take the proper exercise. What I should recommend would be the fixing up of a room in the White House where he could devote half an hour every day to gymnastic exercise. That alone, in my opinion, will prevent a catastrophe, the avoidance of which not only the President, but the country at large, is interested in securing."

ENDORSEING GLADSTONE.

New Yorkers Protesting Against English Coercion in Ireland.

NEW YORK, March 21.—A mass meeting was held in the Cooper Union to-night to protest against the enactment of the proposed Coercion measure for Ireland by the English Parliament. The meeting was held under the auspices of the Municipal Council of the Irish National League. Charles A. Dana, editor of the Sun, acted as Chairman. Samuel J. Randall was among the speakers. Resolutions were passed expressing sentiments appropriate to the occasion. Resolutions passed quote England's greatest statesman in saying that force is no remedy, and declaring that home rule and the establishment of a Parliament to deal directly with local questions is the only basis of a settlement on the Irish question. The resolutions tendering sympathy and promising support to Gladstone and Parnell and encouraging them to oppose the coercion resolutions are to be sent to the two leaders, and also to the Tory leader, Lord Salisbury. The following cablegram was sent to Gladstone: "The citizens of New York, in mass meeting assembled, protesting against coercion, heartily endorse your noble policy, and wish you God-speed in your undertaking."

"CHARLES A. DANA."

The Buffalo Fire.

BUFFALO, March 21.—No more bodies have been found in the ruins of the Richmond hotel up to 11 o'clock to-day, when the searching party was withdrawn owing to the shaky condition of the walls, which are to be pulled down at once. The hotel safe was exhumed this morning and its contents, including \$30,000 to \$40,000 worth of diamonds, were found in good shape.

The Dauntless Seen at Sea.

NEW YORK, March 21.—The steamer Regia from Hamburg, which arrived here to-day, reports, March 18th, 2 A. M., latitude 42° 05' longitude 49° 35', passed a vessel which showed as a night signal white, red and blue, followed by a blue light. She did not observe if it was a steamer or sailing vessel, or where the craft was bound. The Yacht Dauntless was to have burned at night a blue signal light and the Coronet a red light, in addition to the night signal. An the New York Club light is red, green and white, the vessel referred to in the above report may have been the Dauntless.

The Chautauqua Fire.

BUFFALO, March 21.—A special from Jamestown says the fire at the Chautauqua Assembly grounds early this morning destroyed eighty buildings, including several large boarding houses. Among these were the Bickert, Parkhurst and Allen houses. The total loss will probably exceed \$100,000. The fire spread rapidly to adjoining cottages, and the lack of fire apparatus and help favored the flames. About sixty families remain on the grounds during the winter season. The fire swept everything before it, taking both sides of the Simpson and Summerfield avenues from the Auditorium to the Hotel Atkinson, and with great difficulty that the hotel was saved.

Flooded Cellars.

BISMARCK, March 21.—To-morrow those of the three hundred delayed passengers now here who wish to cross the river will be transferred in boats. As soon as the water subsides sufficiently repairs will be made to the Northern Pacific bridge, which can be put in shape for use in two days. At 10 o'clock to-night the river is stationary. There will be but little delay in travel from now on, whether the weather subsides or not. People are continually passing between here and Mandan in boats. About the only trouble at that place is the inconvenience occasioned by flooded basements and cellars.

Tart Betting.

NEW YORK, March 21.—Betting has been in progress here on the Kentucky Derby by Cridge & Co. at \$4000 to \$5000 against Goliah, \$3000 to \$3000 against Silver Bow, \$3000 to \$2000 against Alibi, \$2000 to \$1000 against Tom Hood, \$2500 to \$500 each against Ban Van and El Monte, \$3000 to \$2000 against Duke of Bourbon, \$6000 to \$3000 against Montrose, Platt reports \$3300 to \$1100 against Banburg, \$1500 to \$500 against Penderis, the Virgin Persia sold in the Saratoga market for \$100,000. The race is an open one, and may fall to some rank outsider not yet thought of.

An Insult to San Diego.

WASHINGTON, March 21.—Surgeon Huntington, of the United States Army, who was ordered to San Diego barracks, is not desirous of going there, and is seeking to have the order revoked so he can remain at Washington. The President has been requested to use his power to change the order of the Secretary. He has refused to interfere. It is believed that the order will not be changed and that Dr. Huntington will have to go to San Diego.

Three Men Selected.

WASHINGTON, March 21.—The Star to-night says: "Colonel Lamont admitted to-day that the President had decided upon three of the five Interstate Commissioners, but said it was not proper to say anything about the men selected. The selection of the other two is still in abeyance. He said that there is every reason to suppose that the names selected are as heretofore announced, Morrison, Bragg and Cooley."

News from the Ice Gorge.

ST. PAUL, March 21.—From the Northern Pacific officials, this morning, it is learned that all efforts to dislodge the ice gorge above Mandan have been futile. The water is rising and sweeping away a larger area than yesterday, though how much damage has been done is merely a matter of conjecture. All communication with Mandan is cut off completely, so that it is impossible to get the news direct. The Northern Pacific bridge is not endangered, as was reported.

The Texas Democratic Nominee for Senator.

PALESTINE, Tex., March 11.—The Democratic Congressional convention to nominate a successor to Senator Reagan reassembled this morning and resumed balloting. The deadlock of Saturday remained unbroken through the day, with a number of recesses and shifting of candidates. Finally, amid much excitement, on the 27th ballot to-night Wm. H. Martin was nominated by a unanimous vote.

A Temporary Injunction.

CHICAGO, Ill., March 21.—Judge Tuhy of this city granted a temporary injunction this afternoon against the construction of a cable railroad in the north division of the city, upon the application of the contracting property owner, a that the proposed cable system would injure their land. KAISER WILHELM.

His Majesty's Birthday Draws Forth A MOST ENTHUSIASTIC OVATION.

Berlin Students Cheer the Ancient Ruler and Gladden His Loyal Heart.

Associated Press Dispatches to the HERALD.
BERLIN, March 21.—This evening between three and four thousand students bearing flags, banners and torches formed a procession and marched to the palace. The line extended from the palace to the opera house. When the procession arrived at the palace the Emperor and the Empress appeared at the second window of the ground floor. President Muenck, of the students committee, rode up to the window. Their Majesties, with the Grand Duchess of Baden, rose and bowed. Muenck called for cheers for the Emperor, for the victorious commander in glorious battles, for the beloved father of his country, for the author of the union of German races, for the defender of the frontiers of the Empire, for the guardian of the peace of the world. The applause was tremendous, and was followed by the singing of the national anthem, the Emperor remaining standing, bowing with evident gratification. The procession then marched past the palace. The whole scene was most brilliant. The students cheered loudly at Bismarck's palace, where the Chancellor, Count Herbert Bismarck and Count Rantzau were awaiting the procession. In response to the calls of the students, Bismarck opened his window and bowed his thanks. A similar ovation was tendered by the General Staff. The whole affair was conducted in a most orderly manner. During the procession the Emperor called up several students to express his gratification at their manner, congratulating them. He said that he rejoiced greatly in the spirit displayed by them. He expected much from the academic youth of Germany, as circumstances and times were serious. After referring to the dissolution of the Reichstag he questioned many students separately regarding their birthplace, the studies they pursued, the number of terms they had completed, the corporation to which they belonged. The Emperor also expressed his thanks for the ovations. At 11 o'clock when the Cuirassier regiment came to relieve the guard at the palace, the thousands who still remained in the courtyard into enthusiastic cheering which continued so long that at last the Emperor came to the window again and thanked the people. His appearance had a magic effect; the cheers redoubled and the national anthem was again sung. The Emperor waived his hand and disappeared. At a late hour crowds still remained in the vicinity of the palace.

BERLIN, March 21.—The Prince of Wales paid his first visit to His Majesty to-day. The Chinese Envoy has informed Emperor William that his birthday presents from the Emperor of China were despatched to late, and have not yet arrived. The Sultan of Turkey sent numerous presents. The King of Portugal sent a beautiful sword. Numerous crowds gathered at the imperial palace to watch the evening's event. At nightfall all the streets and squares in the vicinity of the palace were packed with spectators standing twenty rows deep on each side, who had been viewing the arrival and departure of the banquet guests. Through the palace windows were obtained views of the splendid scene within. The clear, starry sky, and the light glimmering in all directions threw weird effects of light and shade on the architecture of the palace and the massive buildings of the university opposite. Suddenly the blaze of light burst forth in front of the building, and the gleams of flame shot from the stars and crowns decorating the front facade; then the scene changed and a deep, rose-colored light shone out from the gardens and flooded the whole building. Presently the procession was seen approaching in perfect silence. The students marched five abreast; they were attired in a picturesque dress and carried a bare sword in one hand and a torch in the other. In the line were banners of old German towns. Two stately, dressed in the uniform of Von Walstein's soldiers, headed the procession. Then came others on horseback, followed by the Ziethen Hussars, with powdered periwigs, white corded coats and cocked hats, surrounded with white plumes. A band of musicians playing a simple tune of the Middle Ages with a touching effect in the still night air. When they reached the Emperor's window the Hussars wheeled back and the torches were seen moving in different directions, turning in and out like will-o'-the-wisps. This was repeated several times with the same effect, the torches circling and crossing as in an ancient war-dance to the sounds of soft old-world music, now approaching and then fading away in the distance. While the procession of students was passing the palace the multitude bared their heads and cheered because wilder and wilder until the Emperor, overcome with emotion, was compelled to withdraw. The procession passed through the town to an open space, where the students sang the hymn, "Gaudemus Scitum Juvenum sum Sumus." In the rear of the procession was a long row of carriages containing deputations from German and foreign universities. Among the numerous birthday ramors it is reported that the Grand Duke of Baden will be made King of Baden and Bismarck created Duke of Lauenburg. Bismarck will give a dinner to the ambassadors and diplomats of the Foreign Office. To-day most of the schools celebrated the event.

The Track Nearly Cleared.

VICTORIA, March 21.—A despatch from Superintendent Moody to-day at Port Moody states that the express train which left there yesterday will go through. The report that a mud tunnel existed, telegraphed from Winnipeg by Chicago, is untrue. The through train from the East is expected at Port Moody to-morrow. The track will be clear throughout on Saturday, and unless something turns up through traffic will be uninterrupted in a day or two. Mr. Marpole, Division Superintendent at Donald, to-day notified Mr. Abbott that the track was cleared and trains could run on schedule time, beginning to-morrow.

SAN FRANCISCO, March 21.—Carlos Berger, of San Benito and Tapo Chula, Mexico, is in the city on his way to Mexico. He is agent for the firm of Louis Muller & Co., of the City of Mexico, surveyors of the public lands of the State of Chiapas. They have a contract to build a railway from San Benito on the ocean, to Tapo Chula, twenty miles inland, and Mr. Berger is on his way to get final plans and directions for the inauguration of the work. The firm also intends building a pier at San Benito, and when this work is completed a line of steamships will be put on between there and San Diego, California.

Arrested on Suspicion.

SACRAMENTO, March 21.—Deputy Sheriff Connors went up to the vicinity of Grass Valley yesterday and arrested another colored man on suspicion of being implicated in the murder of John Kason, near Folsom. He is a tramp and does not deny that he was with the parties who were arrested at Gridley. As he was arrested on information given by those in jail, some of them are evidently beginning to talk, and if they are the guilty parties, it will surely come out. This makes six persons now under arrest on suspicion of having committed the crime.

A Serious Case.

There is a family named Wallace at Alhambra, in which there is reported to be a case of smallpox. It is said that Mr. Wallace refuses to be quarantined, and persists in circulating among the neighbors when he has come directly from his infected family. The matter was brought to the attention of the Board of Supervisors yesterday, and a motion was made that Mr. Wallace be confined to his house during the continuance of smallpox in his family, and arrested if necessary. A question was raised as to whether the man could be confined unless he had committed some statutory offense. Deputy District Attorney Denis said that he would give the Board a written opinion at its meeting to-day. Chairman Kowan said that stringent measures should be adopted with a man who would deliberately leave a house infected with smallpox and go among people who were liable to contract the disease from him.

Constables Cut Down.

The Board of Supervisors yesterday created a flutter among the Constables. Ed Smith put in a bill for mileage and expenses in going to San Diego after a prisoner, for whom he had a warrant issued by Justice Austin. The sum amounted to \$60.70, and the Supervisors refused to allow it, claiming that they could only allow demands for mileage and expenses within the county. Smith says that he will sue the county for the amount of his bill, and says furthermore that when he brings in a prisoner hereafter, the prisoner will live on bacon and branch water if Smith has to pay for it. The Board also disallowed all claims of Constables for arresting vagrants, unless it was proven that the vagrants were arrested on warrants. Smith had fourteen cases of this character.

All of Constable Aguirre's cases of vagrants arrested without warrant were also disallowed, and he has many more than fourteen cases of this character. At last accounts there was an indignation meeting being held by the Constables' forces, with Will Hammel in the chair. A resolution was offered that a flank movement be made on the Board of Supervisors, and it met with favorable consideration. The tramps and vagrants are jubilant and will resist an officer to the bitter end unless he produces a warrant. The average tramp will obey a warrant quicker than he will a six-shooter any time.

BOARD OF PUBLIC WORKS.

The recommendations relating to the granting of the Los Angeles Development Company a franchise on Seventh street created some discussion.

Mr. Kuhn said that the fact was that there were other companies in the city who were trying to prevent other companies from coming in. Mr. Hyams agreed with Mr. Kuhn, and thought it was a pity that the city had not the right to get through with the matter.

Mr. Kuhn said that the fact was that there was a doubt as to its legality should oppose the taking of immediate action. Mr. Kuhn thought that it was strange that Mr. Goss should all at once have been struck with an idea that something was wrong. If this one franchise was laid over to the same time, it would be a great advantage to the city.

It having been suggested that an attorney be given the privilege of speaking, Mr. Jones opposed asking the opinion of any attorney, for the reason that it would take too much time to get through with the business. He did not want action delayed off, and he favored the granting of the franchise right away. The chances of getting any other road in were growing small, and the Council was committing an outrage in delaying action so long. Moved and seconded that when the Council adjourns, it adjourn to Friday afternoon at two o'clock, and that all franchises asked for be taken up at that time.

Petitions offered by Lucy P. Knott and others to have Hope street grade changed. Recommended.

On petition of W. H. Workman for an extension of the Workman franchise; recommended the same be granted. L. C. Goodwin, on request of Mr. Workman, and that the ordinance be drafted as recommended. Laid over.

Recommended the adoption of specifications for the paving of streets as amended, and the publication of notice declaring the intention of the City Council to pave Main street, between First and Second streets. Adopted.

Further time asked on the petition of George Cummings. Granted.

Further time also asked on the petition of Mr. Maria Callahan, to change the name of Fireman Street to Park Place, as the committee think there is a place of that name in the city. Granted.

On petition of Mrs. Dora Jones and others to have New High street graded, recommended the City Engineer draft a general specification for the paving of streets, and that the streets when graded, be done with no cheaper material than macadam. Adopted.

Recommended the petitions of J. H. Bryant and others, for railway franchise be denied, as it covers grounds where franchises already exist for a distance of five blocks. Laid over.

On petition of M. A. Blanchard against the encroachment of property owners on Canal street, recommended the same be referred to the City Engineer. Adopted.

On petition of M. L. Wicks to move the earth from Bellevue avenue for twenty-five cents per cubic yard, with a guarantee that the property will pay the cost when sold. Recommended the same be referred to the City Attorney. Referred.

Further time asked on petition of F. S. Field to change the name of Metcalf street to Cedar street. Granted.

On petition of E. H. O'Melveny and others to have the grade of Wright street established, recommended that the City Surveyor prepare the same. Adopted.

Further time asked on the petition of Ralph Rogers for elevated railroad franchise. Granted.

Recommended the deed of S. A. Widney for street be referred to City Surveyor to ascertain if definition is correct. Adopted.

On petition of East and West Los Angeles Railway Company for amendment to the Griffin franchise, recommended the same be granted, provided they run in conjunction with the Los Angeles Invention Company. Adopted.

On petition of East and West Los Angeles Railway Company for amendment to the Griffin franchise, recommended the same be granted, provided they run in conjunction with the Los Angeles Invention Company. Adopted.

Further time asked on petition of Pickett & Kelly. Granted.

Disorders Which Affect the Kidneys.

Are among the most formidable known. Diabetes, Bright's disease, gravel and other complaints of the urinary organs, are the result of some of the most common and they may be averted by timely medication. A useful stimulant of the urinary glands has been found in Hostetter's Stomach Bitters, a medicine which not only affords relief to the stomach, but increases the vigor and activity of the kidneys, and thus relieves the blood impurities which it is the peculiar duty of these organs to eliminate. The Bitters is also a purifier and strengthener of the bowels, an invigorant of the stomach, and a matchless remedy for biliousness and fever and ague. It counteracts a tendency to premature decay and sustains and comforts the aged and infirm.

A Safford.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest malades of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives so quick and reliable relief and works so sure in all affections of the chest. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, says:

"Medical science has produced no other remedy so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. J. Addison, of Chicago, Ill., who says:

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation so good as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It is a powerful and reliable remedy, and is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S CHERRY PECTORAL.

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into the world since it was first offered to the public.

There is not a household in which this invaluable remedy has not been long and faithfully used, and which has never been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease, who does not feel that it is a household necessity.

AYER'S CHERRY PECTORAL has, in numerous instances, cured obstinate cases of Croup, Whooping Cough, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a powerful and reliable remedy, and is more effective than anything else in relieving even the most serious bronchial and pulmonary affections.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

are all active and growing in business and beauty; the interior towns and cities from Elsinore to Stockton are vying with each other in improvement; the grain fields are larger than ever before and clothe the plains with an emerald mantle, while new mines in the mountains and deserts are rapidly increasing the wealth of the world. The car of improvement marches on without let or hindrance to the strains of triumphant music. California leads all the states to-day in improvement, and there is but one California.

Ratio of Money to Other Property.

Hon. M. H. Slater, Secretary of the National Bi-Metallic Coinage Association, in his valuable pamphlet, entitled "A Brief Treatise on Bi-Metallicism," says: "The sum total of all the money in circulation always bears a certain ratio to the sum total of all the property in existence. This ratio is variously estimated; but, say, for example, one to twenty-seven. If all the property in existence should be forced to a cash sale, at the same hour, this ratio would be reduced until it would stand 1 to 1. The money would equal in amount the necessarily reduced value of the property.

The value that money represents is fixed by law; the value of the property is determined by the amount of money in existence, which may be exchanged for the property. Hence, money establishes, fixes, determines, assesses, estimates the value of property. Note the distinction between the terms, money in existence, and money in circulation. Money which is hoarded in vaults is not performing its chief function as a medium of exchange for values, nor can it affect the value of property. The hoarded eagles of the miser can no more perform the functions of money than a prisoner in a dungeon can perform the duties of a member of society."

"PRINCE METHUSEM."

The Pyke Opera Company at the Grand.

The return of the Pyke Opera Company to the Grand was greeted by a decidedly full house last night, and those present were as enthusiastic as they were numerous. When here some months ago the troupe made a very favorable impression, and the word having passed around from many points where they have appeared recently, that they were very greatly improved by long practice together, as well as by several material additions to their company, insured the presence of all lovers of music and fun. The opera chosen for the opening night was "Princess Methusalem." The melodious numbers were well rendered, and its sparkling fun was brought to the surface in a most telling manner. Louise Manfred took the role of "Princess," which she played and sang with a grace, spirit and voice that all captured the hearts of her hearers. She has much improved in her singing since her previous appearance here, and her graceful and pleasing stage presence rendered her a decidedly pretty picture on the boards. Jeannie Winston as "Princess Methusalem" was most effective. Her tall and sharply figure "made up" excellently in the handsome costumes fitting the part to which she was cast, and her voice the addition par excellence to the troupe. In all the numbers of the opera she sang well, and the rendition of the beautiful "Princess" was most effective. In the hands of the performers. In the hands of the performers. In the hands of the performers.

"San Francisco, March 21, 1887." "H. McCallum, Los Angeles." "No truth in rumor that steamer will be guaranteed." "GOODALL, PERKINS & Co."

This is a most reassuring dispatch that will be gratifying to the traveling public, but there has been no official announcement that the entire provisions of the resolutions of the Board have been rescinded.

THE SMALLPOX.

A Few New Cases of the Disease Discovered.

Health Officer Hagan reports that three new cases of smallpox were discovered yesterday; one in the rear of 409 Buena Vista street, one at 105 Hays street, and one at the Catholic Orphan Asylum. This last case was sent to the smallpox hospital. Dr. Hagan says that he has vaccinated all of the children in the orphanage once and will vaccinate them again to-day.

Various reports were circulated yesterday as to smallpox and the Health Officer's assistants were kept busy investigating the reported cases. All were found to be fallacious. A case reported at 23 Buena Vista proved to be a woman who was suffering from one of those accidents which so often visit women who have entered the marriage relation. The child is a boy. House to house vaccination is going on steadily.

Killed By a Tree.

Coroner Meredith returned yesterday from a trip to Santa Ana, where he held an inquest on the body of Vicente Morales, an Indian who was killed on the Santiago ranch by the falling of a tree. It appeared that deceased was chopping at the base of the tree which fell upon and crushed him before he could get out of the way. The jury found that he came to his death on the 19th of March through injuries caused by the falling of a tree upon him, and that the death was accidental.

News Notes.

S. Baker was brought in from Santa Ana yesterday by Constable Peters. He was placed in the county jail on a charge of insanity.

The taking of testimony in the Lynch-Vandover contest will be resumed before Notary Owen to-morrow morning at 10 o'clock.

J. W. Riley, near Acton station on the Southern Pacific Railroad in Soledad camp, has commenced running his five-stamp mill on gold ore with good success.

Beaumont has two daily trains each way, one the Beaumont local. A contract is let for a \$25,000 hotel, which will be one of the finest in Southern California.

There is a movement on foot to organize an Austrian Society, and there will be a meeting on the evening of the 29th to perfect the organization and elect officers.

Isaac W. Lord, of Cucamonga, was in the city yesterday. He has purchased 500 acres of land on the line of the A. T. & S. F. railway near Mud Springs for \$100,000, and will have a depot and a new city of the Lord in a short time.

Major T. C. Kendall, one of the old residents of San Bernardino and a prominent business man, was found dead in his bed at that place on Sunday morning, March 20th. He died from apoplexy.

A deputy sheriff from Anaheim yesterday brought to this city and lodged in jail one Robert Hannon. He is deemed to stay in the bastille for ten days because he disturbed the peace of Anaheim.

The new town of Cucamonga has a real estate office, a lumber yard, a construction train and a constant sale of land. Thirty thousand shade trees are being planted along the streets and avenues of the town, which are being made as fast as men and money can do the work.

Mr. John T. Gaffey, of the State Board of Equalization, will meet the Board of Supervisors at 10 o'clock this morning to discuss assessment matters in this county. It is said that in many instances the Deputy Assessors are valuing lands at four times the valuation of last year.

Mr. Samuel W. Keene, one of the most talented actors on the American stage, now the manager of the Pyke Opera Company, has consented to take the part of "The Premier" to-night in "The Queen's Lace Handkerchief." This is a treat that the people did not have in anticipation, and the announcement of Mr. Keene's appearance will doubtless crowd the Grand Opera House.

The Azusa Land and Water Company yesterday purchased mules to the value of \$2500 and sent them to Azusa to grade and make the streets of the city of Azusa. The Los Angeles and Santa Anita Valley Railroad Company is pledged to have its track completed to the new settlement by April 6th or forfeit \$2000. Twenty thousand feet of water-pipe has been purchased and will be laid by the company.

Mr. Alfred James, of this city, who, with his partner, has been opening the Owens mine, in the Julian district, San Diego county, and were almost exhausted in courage and capital, has received the gratifying news that they have struck rich gold ore in abundance. They have opened a vein of rich gold ore 200 feet in length. It will probably give them \$25 per ton for a long time to come and prove to be a bonanza.

Mrs. M. A. Foster, so well known to our people as the proprietor of a leading millinery establishment, returned to the city Sunday. This charming little lady has for the past two months been visiting friends and relatives in New York and Pennsylvania. It is altogether probable that during her stay in the Eastern metropolis she exercised her exquisite taste for which she is so justly famous, in the selection of a line of millinery goods that will astonish the fashionable ladies of Los Angeles.

Some extensive improvements are taking place at the county jail. A handsome room is being fitted up for the reception of visitors and a room is being nicely furnished for an office. Los Angeles has one of the best constructed jails so far as light, air and room are concerned, in the State. As to the excellent manner in which it is conducted, it is only necessary to state that Col. Jim Thompson, Sheriff of the county, and his assistant and Sheriff Kays as the head of the whole. There are now about 95 prisoners in the jail, and assistant jailer Clark has been so busy that he has not been "off the hill" for two months.

In the direction of Santa Monica is a school house, and in that school house is a lady teacher as well as a most ardent politician. Her pupils, who are composed of boys and girls, big and small, were thus addressed: "I am a Republican; all of you who are Republicans stand up." The erection of various sizes of boys could be seen gathered in the room. "Now, all of you who are Democrats stand up." To her astonishment a large majority of the youngsters enthusiastically rose in all their might and proudly declared themselves to be genuine Democrats. The last day she was complained of ill-respect manifested to her in her capacity of teacher.

Pullman Passengers.

The following passengers left on the 1:30 train yesterday: C. B. Leonard, E. Benjamin, Mr. Coolidge, C. A. Watson, Miss Skow, Mrs. I. N. Sears, J. M. Eyer, D. S. Renshaw, Mrs. S. Hooper, W. M. Warren, F. W. Thompson, F. Knower, H. E. Ellis and family, Mrs. Prior and family, Mrs. Slauson, Mrs. Killinger, T. W. Whipple, Mrs. A. Norton.

FINANCE AND TRADE.

A Review of the Day's Transactions.

NEW YORK, March 21.—The new week on the stock exchange opened without any change in the speculative situation, and the market was again dull and featureless, with the transactions retaining the same professional character. The opening was tame and uninteresting, but fairly steady, with first prices showing only slight changes, which were about equally divided between gains and losses. The market was heavy in the early trading, Reading, however, being decidedly weak, although the losses recorded were for fractions only. There was a slight recovery late in the first hour. Fort Worth and Denver advanced 1 per cent. The market then became steady, but remained extremely dull, though the general stagnation was relieved by a spurt in Texas Pacific during the afternoon. There was another period of depression in the last hour, and the market closed rather heavy, with Government bonds dull and steady.

British Grain Review.

LONDON, March 21.—The Mark Lane Express, in its review of the British grain trade during the past week, says: English wheat is dull and irregular. Sales of British wheat during the week were 45,000 quarters at 30s. 11d. against 72,519 quarters at 30s. 1d. during the corresponding week of last year. Anxiety is caused by the delay in the arrival of the Russian wheat, the immediate destruction by fire of all screenings, claiming that if it is any day it will be too late to cope with the pest. Flour is dull and weaker, owing to enormous supplies from America. Foreign wheat does not improve. Indian and Russian are cheaper. Liverpool quotations are 1d. lower. Corn, 12s. 6d. and 12s. 8d. and 12s. 10d. and one was sold. At today's market wheat was dull. Some sellers were 6d. and 1s. under. Flour was unchanged; foreign flour was 1d. lower. They Never Fail.

California's scenery cannot be surpassed in the world, with her beautiful evergreen valleys and her mountains snow-capped mountains. Abietine is produced on one of the mountains that intervenes between the two. It has been demonstrated beyond the possibility of doubt that Abietine has great medicinal properties, both as an external and internal remedy, and we also claim to have in ABIE-TINE COUGH BALSAM, ABIE-TINE OINTMENT, FAYER'S ABIE-TINE and Abietine and Yarrow Sanitizing Candy, remedies that never fail. See circular with each remedy. Sold by C. F. Heinemann.

Cough Syrup.

Brewer's Bronchial Trochies will allay irritation which induces coughing, giving relief in bronchitis, influenza, croup and throat troubles.

Beautiful Women.

Are made so by using and beseeching "Favorite Prescription" will infallibly cure. Thousands of testimonials. By druggists.

Is it not singular?

That consumptives should be the least apprehensive of their own condition, while all their friends are urging and beseeching them to be more careful about exposure and overexertion. It may well be considered one of the singularities of human nature, that where the patient is reckless and does not believe that he is in danger. Reader, if you are in this condition, do not neglect the only means of recovery. Avoid exposure and fatigue, be regular in your habits, and use faithfully Dr. Pierce's "Golden Medical Discovery." It has saved thousands who were steadily failing. Don't hawk, hawk, blow, spit, and disgust everybody with your off-naive breath, but use Dr. Sage's Catarrh Remedy and end it.

DR. FLINT'S

HEART REMEDY

Take it in Time.

A man who presents an appearance of debility, whose countenance is anxious and beseeching, who is unable to perform his duties, who is liable to spells of faintness, is liable to sudden death from heart disease. Let him take Dr. Flint's Heart Remedy. It will cure him.

Apoplexy.

Dr. Flint's Heart Remedy would cure apoplexy, which is usually dependent upon a diseased heart, if taken when first any unusual sensations were felt.

Blessing of Sleep.

Dr. Flint's Heart Remedy would cure insomnia, which is usually dependent upon a diseased heart, if taken when first any unusual sensations were felt.

HAMBURG FIGS.

There is no remedy which can rival Hamburg Figs for the cure of habitual constipation, indigestion and headache. Their action is so prompt and efficient as their taste is pleasant. 25 cents.

BOARD OF TRADE.

Action in Regard to New Building.

SUBSCRIPTIONS OPENED.

Bids for a Lot Received, and the Matter Considered and Referred.

The members of the Board of Trade and of the Produce Exchange met last evening, E. L. Stern in the chair, for the purpose of considering proposals for a lot on which to build a Board of Trade building and to listen to the report of the trustees elected a week previously.

Mr. Stern said he hoped that those present would determine without delay the place upon which to build. It made no difference where the building was put up so long as it built in a place which would be productive of good results.

Mr. Lewis, chairman of the trustees, reported that Mr. Germain had been selected as the third trustee.

BIDS OPENED.

The secretary then read the following proposals for lots: John Bryson, Sr., lot 12x120 on the corner of First and Bond streets, \$110,000; will take \$14,000 in bonds secured on said lot. William Niles, lot corner of Los Angeles and Aliso streets, at the head of Aliso street, \$150,000; will take \$100,000 in bonds secured on said lot. McCoy & Cashman offered the following locations: Lot on the northwest corner of New High and Franklin streets, 78x120 feet, \$36,000; lot on the west side of Spring street, between Franklin and First streets, 53x125 feet, \$70,000; lot on the east side of Spring street, 120 feet south of First, 60x145 feet, \$90,000; lot on Spring street, between southeast corner of Fourth, 120x80 feet, \$85,000.

Messrs. Huber & Finney offered a lot 56x130 on Main street, on the northeast corner of Main and Second, for \$750 per front foot; adjoining thirty feet on Main, same depth, at \$900 per front foot; terms, one-half cash, balance in two years at ten per cent. interest.

George D. Rowan offered a lot 120x120 feet on the southwest corner of Fort and First streets, at \$90,000, one-half cash, balance in six, twelve and eighteen months at ten per cent. interest; lot 42x120 feet on First street adjoining the Nadeau House on west line, 110x180 on Fort street, both together, \$125,000, \$50,000 cash, balance on time; lot on southwest corner of Spring and Fourth, 120x165 feet, \$125,000, \$40,000 cash and balance, seven per cent. on time; lot 62x200 on Main, between Third and Fourth, \$21,000, on condition that it is built upon.

DISCUSSION OF THE PROPOSAL.

Mr. Bryson offered to lease his corner for ninety-nine years upon terms to be afterward fixed. He was informed that it was impossible to lease land for longer than fifty years.

W. J. Broderick said that two years ago they were offered a piece of property for \$15,000, and now the same property cannot be bought for less than \$50,000. It was folly to think of further delay.

Mr. J. A. Graves urged immediate action, or else the building would not be erected.

Mr. Bryson said that Mr. Studebaker offered \$100,000 for one of the lots offered, and that they be instructed to advertise for ten days longer.

J. I. Reddick quoted an instance of a piece of property doubling in value in a year.

Mr. Barnes moved that the bids be referred to the Board of Trustees with power to act, and that they be instructed to advertise for ten days longer.

Mr. Graves thought that the Board could not afford to wait ten days longer. He moved an amendment that the matter be referred to the trustees, together with joint directors of both Boards, for selection with power to act. This resolution was carried unanimously.

Mr. Reddick offered a resolution to the effect that the selection of a lot and the erection of the building be referred to the trustees and the directors of both Boards with power to act. This resolution was carried unanimously.

Mr. Graves said that they were going into the business in a business manner and he moved that the subscription list be opened and see how many bonds would be taken.

SUBSCRIPTIONS.

Mr. Stern subscribed \$1000 for his firm. He thought that every one ought to assist in beautifying the city, in building up and in furthering all industries.

Mr. Reddick subscribed \$1000 individually and his bank could take as much as it pleased.

Mr. Stern thought it would be a good idea for the members of the boards to subscribe first and show that they had confidence in it.

Mr. H. Newman subscribed for \$1000 in bonds.

Messrs. Graves & O'Melveny subscribed for \$1000.

L. W. Hoffman subscribed for fifteen bonds, \$1500.

Mr. M. A. Newman & Co. subscribed for ten bonds, \$1000.

M. D. Johnson subscribed for five shares, \$500.

The following also subscribed: S. B. Lewis, \$1000; B. E. Germain, \$500; Mathews Bros. & Bartling, \$500; N. Van Nuy, \$500; Thielkeld Hudson, \$100; W. J. Broderick, \$1000; E. B. Miller, \$500; P. Hallade, \$500, and Strange & Gotschall, \$500.

The brilliant enterprise of Lewis Brothers.

This well known boot and shoe house will on Wednesday next adopt the most novel scheme ever heard of in the annals of merchandising in Los Angeles. They will give away every month a \$200 lot in the Lewis tract, adjoining the thriving town of Garvanzo, with its \$30,000 hotel, railway, stores, schoolhouses, etc. Their advertisement in another column explains the manner of distribution, and it will certainly prove a boon to the fortunate winner of a lot. Enterprise of this kind will surely bring a rich reward to the courageous firm undertaking such a costly advertisement. The land is beautifully situated, and only thirty minutes ride from the center of town. It is highly spoken of by several prominent and well posted real estate men of this city.

Marriage Licenses.

The following persons were yesterday licensed to wed: W. E. Rushing to K. Hubbard; E. G. Case to A. L. Price.

Land donated to the county by Geo. A. Nadeau, for the Nadeau crossroad, was declared a public highway.

Pursuant to the proclamation of the Governor, an election was ordered to be held throughout the county on Tuesday, April 12th, on certain amendments to the Constitution.

In accordance with the petition of property owners of South Pasadena, the names of two streets were ordered changed.

Certain changes were ordered made in the course of the Perth road, and for that purpose certain deeds to land were accepted and others were ordered returned to their former owners.

Land donated by Geo. Stoneman for Garfield avenue was declared a public highway.

The time for hearing the report of the viewers of the Carr and Lawton road was set for April 8th, at 10 A. M. On motion, the sum of \$50 70 in Constable Smith's bill was disallowed and the consideration of the remaining portion of his demand was continued till the April session.

The demands of Constable Aguirre, not warrented, were disallowed, and the further consideration of the bill continued until the April session.

The L. A. Nicos Ditch Company was granted the privilege to construct a ditch on the east side of the Norwalk and Pomona roads under the Supervision of the Road Overseer, and to place the necessary bridges and culverts.

The Chairman of the Board and Supervisor Macy were authorized to secure extra room for the County Recorder.

The sum of \$300 was ordered transferred from the Public Road Fund to the Roadside Road Fund.

The Board adjourned to meet March 22d, at 10 A. M.
